

Design **Katrin Soans**

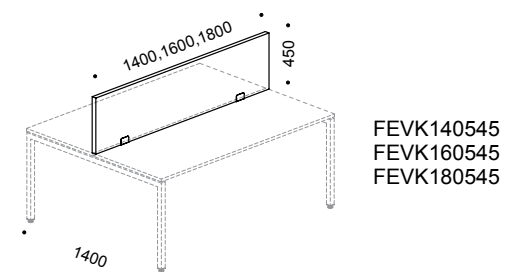

FE tooteperekond koosneb uuenduslikest polüestervildist ja väga heade heli neelavate omadustega põrandasirmidest, lauasirmidest, seinapaneelidest ning dekoratiivsetest puudest. FE sirmid ja paneelid vähendavad avatud büroos müraareostust, toimivad ruumijagajatena ning on ühtaegu ka sisekujunduselemendid.

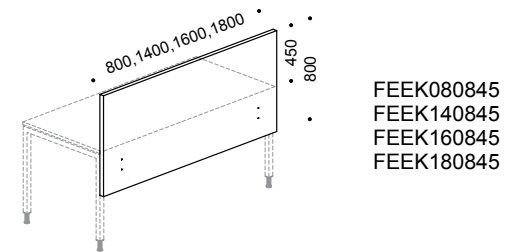

FE product family includes innovative and sound absorbing floor and desk screens, wall panels and decorative trees made of polyester felt. FE screens and wall panels reduce noise pollution in open offices, work as room dividers and at the same time are interior design elements.

В семейство продуктов **FE** входят напольные ширмы, настольные ширмы, стеновые панели и декоративные деревья из инновационного полиэфестерного войлока, обладающие отличными звукопоглощающими свойствами. Ширмы и панели FE сокращают шумовое загрязнение офисов открытого типа, выполняют функцию разделителей пространства и одновременно играют роль элементов внутреннего оформления.
